

Meeting Minutes June 2018

In Attendance: Joe, Ed, Andrew, Andy, Amanda

Rodents were reported in East and West sides. East side rodents were removed and cleaned out. Removing the rat habitat is a long term plan for the west side habitat. In the meantime, standard extermination methods are being applied to the problem. plan.

Compost another 10 cubic yards are scheduled to be delivered in a week or so

Woodchips next delivery will be after the stones have been removed from the path area being used for the new patio on the Northwest side.

Northwest patio will be completed by end of June. The tree above it will be pruned and we will also have dead branches chipped. If it cost less than \$500 it can done without further approval from the executive committee

Bee Hive- Amanda is starting a bee hive and will talk with Theo who is also interested in being a part of a bee hive project

Work Day- this Saturday.

Community Garden Day is this Saturday.
